EDUCATION

B.Tech in Computer Science, SICET

2023 - 2027

CGPA: 8.73

Intermediate, Keshav Smarak Junior College

2021 - 2023

Percentage: 96.6%

SKILLS

Languages: Java, C++, Python, JavaScript, SQL

Frameworks: Spring Boot, React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Tools: Linux, Git, Power BI, Tableau, VS Code

EXPERIENCE

Financial analyst Intern

June 2026 - Aug 2026

JP MORGAN CHASE & CO

Remote

DSA Mentor

Jan 2026 – Mar 2026

Smart Interviews

PROJECTS

FloatChat — AI Ocean Data Platform

Python · FastAPI · React.js · PostgreSQL · RAG · Gemini

Built an AI-powered platform ingesting 500K+ ARGO NetCDF ocean data points into PostgreSQL, reducing data access time by ~70%. Enabled natural language querying through RAG and vector search, with real-time geospatial analytics and interactive visualization.

AI Interview Simulator

React.js · FastAPI · MongoDB · WebSockets · Gemini · Whisper

Built a real-time AI interview platform with adaptive question generation, voice responses, and automated evaluation. Developed an asynchronous FastAPI backend with WebSockets for bidirectional audio streaming and locally hosted Whisper transcription, using sequence numbers for audio ordering and message types to synchronize transcripts, timers, and analytics. Implemented JWT authentication, resume parsing with ATS scoring, adaptive difficulty, and Judgeo-based sandboxed coding assessments.

MicroWarehouse AI — Smart Warehousing Platform

React.js · Node.js · Express.js · MongoDB · JWT

Developed a full-stack marketplace connecting businesses with nearby micro-warehouses across 3 user roles (business, owner, admin). Implemented end-to-end booking workflows, JWT-secured role-based dashboards, and data-driven storage allocation.

ACHIEVEMENTS

Ranked **5th statewide** in Telangana Intermediate Board Examination — Top 1% among 250,000+ students.

Published a **research paper** on MicroWarehouse AI Smart Warehousing Platform.

Solved **650+ problems** on LeetCode and secured finalist positions in multiple **college-level coding contests**.

Intra-College , **Smart India Hackathon (SIH)** — participated among top teams representing the institution.

CERTIFICATIONS

MERN Stack Development

Data Structures and Algorithms — Smart Interviews

NPTEL: Object-Oriented Programming in C++

NPTEL: Internet of Things (Elite Silver)
